INTRODUCTION

Multilingual Newspapers and Periodicals in Ontario Public Libraries is a directory of the location of multilingual newspapers and periodicals by library, language and area in this Province.

The directory is divided into three parts. The first part lists alphabetically by library the language(s) held by each library. The second part lists by language the title, place of publiction and holdings and the third part lists the Ontario Library Service Areas and the Metropolitan Toronto Area with their member libraries and languages.

Comments or questions regarding this directory should be addressed to:

HOW TO USE THIS DIRECTORY

BIBLIOGRAPHIC DESCRIPTION

Each entry indicates the title of the publication, the name of the issuing body, if significant, and the place of publication. Wherever appropriate, title history is shown in a note after the holdings information, for the immediately preceding and following titles. "Continues" means that the title of the publication has changed and the numbering of the former title continues with the new title. "Supersedes" means that both the title and the numbering of the publication have changed.

"Absorbed" means that an existing publication has incorporated another publication which ceased to exist.

HOLDINGS

Holdings information is indicated by the code for the area (e.g. MT, ES), followed by the code for each library system (e.g. KIT, AJ) and the code for the branches of the Metropolitan libraries only.

The holdings are indicated by either a specific volume number and date for the beginning of the file (e.g. v.1, 1968-) or a phrase indicating the holding policy, such as "current year". A dash (-) following the date indicates the holdings are complete to the present. Holdings in microfilm follow immediately after the hard copy holdings for each branch or department.

Incomplete sets are indicated by square brackets [ ] but patrons are advised in all cases to telephone and verify the availability and circulation regulations of specific items.

The abbreviations and symbols used to indicate holdings are as follows:

-	to, or to date
[ ]	incomplete holdings
;	file is broken, begins again with the next volume number listed
//	ceased publication
no.	number
pt.	part
s.	series
ns	new series
v.	volume
mc	microcard
mf	microfilm
mfc	microfiche

FILING ARRANGEMENT

The filing rules used in this Directory are similar to the new Library of Congress filing rules.

Listed below are examples of the major deviations from more traditional filing arrangements.

i) Entries beginning with numerals are filed before the alphabetic entries.
e.g. 4th files before Alphabet

ii) Words connected by a hyphen are treated as separate words.
e.g. Co-ordinator files before Coach and athlete

(iii) Names beginning with the prefixes Mac, Mc are filed separately.
e.g. McCall's files after Mayflower

iv) Non-alphabetical signs and symbols are filed before the word which they represent.
e.g. Engineering & construction files before Engineering and biological control systems
